

2.2 LP - HSEQ LEADERSHIP POLICY STATEMENT

Arteak is an HSE-led organisation committed to the highest standards of health, safety, environmental protection, and quality in all activities undertaken on behalf of our clients.

We operate in high-risk, complex industrial environments where failure can result in serious harm to people, damage to assets, environmental impact, and significant reputational and commercial consequences. There is no tolerance for unsafe compromise.

Arteak is committed to:

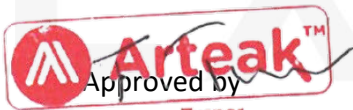

- Protecting the health, safety, and wellbeing of all persons affected by our activities
- Preventing injury, ill health, environmental harm, and quality failures
- Complying with applicable legal, regulatory, and client requirements
- Providing competent resources and effective safety leadership
- Maintaining an effective Integrated Management System aligned with recognised international standards
- Continual improvement of our HSEQ performance

Arteak personnel do not accept or authorise risk on behalf of clients. Where non-compliance or unsafe conditions are identified, Arteak's role is to intervene, report, and escalate in accordance with agreed requirements.

This policy applies to all employees, self-employed contractors, subcontractors, and any individual performing services for Arteak or on behalf of its clients.

Compliance with this policy is a condition of engagement.

This policy is supported by Arteak's governance policies, frameworks, procedures, and operational controls, which together form Arteak's management system and define how requirements are implemented, monitored, and assured in practice.
